**The Einstein Project is a Certified Professional Learning Partner for OpenSciEd**

The OpenSciEd Curriculum is an Open Educational Resource (OER), freely available from [OpenSciEd.org](https://OpenSciEd.org). It is a high-quality instructional resource that is much more than a curriculum. Teachers using OpenSciEd transform the way that they teach science to make it student-centered and equitable for all students. Ask how we can support your district through a sustainable and scalable implementation. Email us at [einstein@einsteinproject.org](mailto:einstein@einsteinproject.org) to schedule a conversation.

**Instructional materials that inspire & engage**

mySci is dedicated to creating equity in science learning through hands-on, inquiry-based curriculum that nurtures critical thinking and creativity.

**Comprehensive Curriculum & Materials**

All are available on Google Docs and include lesson plans, student journals, answer keys, background information, assessments, lesson slides and tutorials for the hands-on kit materials.

## Are you looking to implement new high-quality instructional materials?

**Launch into success with comprehensive professional learning support from the Einstein Project!**

Educators need more than a 1/2 day "training" on how to use a new resource. Our team can provide embedded and ongoing support to help ensure that your curriculum launch is sustainable. With services ranging from curriculum-based professional learning, to science coaching and materials management, we can help set up a plan to get your teachers prepared and your students more engaged in meaningful science learning.

**Set up an appointment today to talk about your needs and learn how we can help!**
